## Serving in MEXICO

January - March: 2021

Home Church  
Faith Baptist Church  
Bath, SC 29816

Greetings in the Name of our Lord Jesus,

We made it into 2021 safely and now much closer to our final destination: being in the presence of our Lord Jesus Christ in our glorified bodies!

The prospect of having in church services seems to be possible in the near future. Mexico alerts the changing of the Corona Virus status via color codes. Many states in Mexico are in the green and opening up. We're in the state of Nuevo Leon and it is in color yellow and the next color for us is green and that means all things will open up, including in church services. That is, if they don't change their minds!

We have experienced some sickness, not Barb and I personally, but Juany, Valeria, Barbarita, Jaden and others in our community and the ranchitos but none have been diagnosed as coronavirus/covid-19. All have been diagnosed as mild flu and all are doing fine, thank the Lord! I was hit with the corona virus months ago. It hit me hard but I'm doing great now, thank the Lord!

As the invasion of illegals are flooding into the US (many have to pass through our area first), the news media only scratches the surface of the reality of what is happening and what is in store for America. We see and live these things first hand and America is sleeping to what is about to pounce upon them. We live on a main drug and human cartel route to the US. We see more than we want to see and are told first hand of many horrors that are taking place around us. Everyone has to guard their children and we do the same with our grandchildren because of the kidnapping of female children and young teens (male and female). The news media does not and cannot do justice in exposing these things. Mexican reporters are routinely executed for reporting on cartel activity. To make a trek to the US, we have to travel through 3 different cartel routes. Need your constant prayer!

On a personal note, our AC's went out, Barb's microwave croaked. I'm trying to revive my 33yr old '88 Ford 7.3 diesel truck. She's (truck not Barb) had a hard life and has done well but time, wear and tear has taken its toll and now "old grey" needs some major attention. The list just keeps getting longer. In the midst of all things happening, God has given us good health and that's a BIG amen!!

Our people were so very thankful for the very good Christmas. I teach that God's people are the most giving people in the word and I teach as you have received, also have compassion and you go do the same.
